PRESS RELEASE

BIC Euronova opens up a new space to attract international and national teleworkers who wish to work from Malaga.

"BIC Euronova Coworking Premium" is the new workspace of the European Centre for Business and Innovation in Malaga, intended to host digital teleworkers and nomads.

Malaga.... 2021

BIC Euronova, the European Centre for Business and Innovation of Malaga, based in the Technological Park of Andalusia (Málaga Tech Park), opens a new workspace in its centre, called "BIC Euronova Coworking Premium" intended to host international and national digital teleworkers and nomads who wish to work from Malaga.

"BIC Euronova Coworking Premium" is characterised by being a creative space, in a technological environment and surrounded by companies and entrepreneurs with a strong technological and innovative profile. A fully equipped place with everything you need. It has 8 workstations, Wi-Fi connection, multifunction printer with wifi for printing, scanning and copying, break area with microwave and refrigerator, as well as meeting rooms and training rooms. It also has softlanding, consulting, business diagnostics, attracting investment and financing, along with accompanying advice and mentoring.

This new commitment of BIC Euronova, is backed by its international vocation and great experience in attracting talent to Malaga as a European Centre for Business and Innovation, a pioneer in the city in supporting the creation, incubation, consolidation and internationalisation of innovative companies. BIC Euronova, in addition to being an incubator of innovative companies, has extensive experience in providing softlanding services to foreign companies that have decided to start their business in Malaga, making it easier for them to implement their business, thus promoting the economic and international development of the city. Likewise, it provides internationalisation services to companies and startups thanks to its strong alliances with agencies around the world.

In addition to hosting innovative Malaga and Spanish companies in its incubator, BIC Euronova also houses companies of international origin. During almost 30

years of activity it has had companies and entrepreneurs of different nationalities such as Dutch, Belgian, English, French, Italian, Irish, Danish, Finnish, American and Gambian, among others.

Both for its commitment to the acquisition of international companies and teleworkers, as well as for the internationalization of startups, BIC Euronova has been endorsed by the EU | BIC since its inception, almost 30 years ago, by the European Commission through the European network of EBN BICs, to which it has belonged since its founding. This brand, renewed annually, is a quality badge in the provision of the services that BIC Euronova offers as the European Centre for Business and Innovation (CEEI) or BIC (Business Innovation Centre).

BIC Euronova is also a partner in Spain of the prestigious Skydeck accelerator at the University of Berkeley (USA), and is approved as a Softlading International Incubator, granted by the US National Incubator Association (InBIA).

www.bic.es

BIC Euronova is the European Business and Innovation Centre (CEEI) of Malaga, the pioneering incubator of innovative companies in Malaga and based in the Andalusian Technology Park (Málaga Tech Park). Founded in 1991 on the initiative of the Commission of the European Communities, consisting of public and private capital, 40% of the IDEA Agency of the Junta de Andalucía, 40% of Promálaga of the City of Malaga and 20% of the financial institution UNICAJA. Its mission is to support the creation, incubation, consolidation and internationalization of innovative SMEs, to promote the implementation of new activities in existing SMEs, as well as to advise entrepreneurs and public administrations on innovation, in order to promote endogenous generation of wealth and employment. Since its inception BIC Euronova has the European brand EU-BIC, which renews annually. BIC Euronova is a partner in Spain of the prestigious Skydeck accelerator at the University of Berkeley - USA. In addition, BIC Euronova acts as an international incubator approved by the International Business Innovation Association of the USA, BIC Euronova belongs to and has the headquarters of the National Association of Spanish BICs (ANCES), in addition to belonging to the European Business Network (EBN), which brings together more than 250 BICs in Europe.
