What's in it for you?

INDIGO VALORIZATION PROGRAMME supports projects **for the definition of their roadmaps for scaling up their research** results. 2 out of the three steps are open to the general public. The third step is designed especially for INDIGO funded projects.

The programme consists of 3 complementary parts:

1. **MOOC:** Online Training ****open to public****
2. **WEBINAR:** Mentoring Scheme ****open to public****
3. **WORKSHOP:** Working on outcomes of MOOC and **Webinars **access upon application****

1. ONLINE TRAINING via MOOC

The online training will consist in the MOODLE SCALING UP METHODOLOGY presenting 4 key fundamental phases of the scaling up process:

1. Create a Vision
2. Assess Scalability
3. Fill Information Gaps
4. Prepare a Scaling Up Plan

General descriptions of the methodology and some practical tools will help to develop a scaling up plan of results/models or projects. Contact: Ms. *Begoña Benito* benito@gaia.es

2. MENTORING via Webinars

Between 21st of February and 24th of March 2017, a series of 6 webinars will complement the aspects presented in the MOOC. Each webinar will last 60 minutes.

European and Indian research and innovation players will benefit from a comprehensive support action enabling them to define concrete roadmaps to scale up their project results. Contact: Ms. *Chiara Davalli* chiara.davalli@ebn.eu

3. WORKSHOP: complete first two steps

***access open to INDIGO projects *** On 21st of April 2017, INNO INDIGO will organize a full 1 day workshop for a selection of INDIGO funded projects selected for the mentoring scheme.

The valorisation workshop will close the set of online training and mentoring activities. We expect the participants to have worked on their scaling up roadmaps between February and March 2017 (by using the MOOC/MOODLE and the mentoring support). The valorisation workshop will represent the final milestone of this process, when their individual roadmaps will be validated with peers and experts. Contact: Ms. *Begoña Benito* benito@gaia.es

The workshop will consist of:

- Pitching session, where the selected projects will present their results and scaling up plans to a set of experts
- Feedback from experts and peers
- 2 training sessions (for example business modelling and marketing)
